## **Embark on a Journey with the all new Seal Guardians Presentation**

Sea World guests can now embark on a journey to save the oceans with the all new Seal Guardians presentation showing twice daily.

Seal Guardians is an entertaining and educational presentation that will take Sea World guests on an exciting mission to help protect the ocean from plastic pollution.

Sea World Curator of Mammals, Mitchell Leroy said the Seal Guardians presentation has been over a year in the making and he can't wait for guests to be able to watch it.

"Seal Guardians is an exciting new presentation which has a really important message about the impact plastic pollution is having on our oceans and what we can do to prevent further damage," he said.

"Seal Guardians is unlike anything we've done before at Sea World with digital, two legged, finned and feathered friends combining in an entertaining and educational presentation.

"Seal Theatre has undergone a complete transformation with an all-new colourful set which will transport Sea World guests to Sea Lab One which is the most technically advanced ocean clean up facility in the world.

"In addition to the launch of this new presentation, Sea World is also excited to announce that the park will be phasing out single-use carry bags."

With the launch of this presentation and the all new The Reef at Castaway Beach, there is something on offer for the whole family at Sea World these holidays.

The best way to experience the Seal Guardians presentation is with a Village Roadshow One Pass which gives you unlimited entry to Sea World, Warner Bros. Movie World, Wet'n'Wild Gold Coast and Paradise Country for 12 months. For more information visit [seaworld.com.au](http://seaworld.com.au) or call 13 33 86.
