# Reporting questionnaire

## Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. The aggregated data in your workplace profile assists relevant employers in understanding the characteristics of their workforce, including in relation to occupational segregation, the position of women and men in management within their industry or sector, and patterns of potentially insecure employment.

**NB. IMPORTANT:**

- References to the Act mean the Workplace Gender Equality Act 2012.
- A formal 'policy' and/or 'formal strategy' in this questionnaire refers to formal policies and/or strategies that are either standalone or contained within another formal policy/formal strategy.
- Data provided in this reporting questionnaire covers the TOTAL reporting period from 1 April 2018 to 31 March 2019. (This differs from the workplace profile data which is taken at a point-in-time during the reporting period).
- Answers need to reflect ALL organisations covered in this report.

All staff have access to our Employee Assistance Program (EAP) provided through Converge. As part of this, the company approves six paid psychologist sessions for the employee. We also offer staff, on a case by case basis, the option to work from home or alter their start/finish times to assist in their caring responsibilities. All staff who are on parental leave at the time of our annual remuneration review are still awarded a remuneration increase (merit based) so that they don't fall behind. We offer and encourage 'keeping in touch' days to staff

who are on parental leave and ensure that they remain in contact with any news or developments in the business. Special consideration is also given to employees who are on parental leave if there are any structural changes made to a department or role. Where possible we ensure that suitable roles are held open for their return.

# Reporting questionnaire

## Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. # Reporting questionnaire

## Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. All staff have access to our Employee Assistance Program (EAP) provided through Converge International. As part of this, the company approves six paid psychologist sessions for the employee. We also offer staff, on a case by case basis, the option to work from home or alter their start/finish times to assist in their caring responsibilities. All staff who are on parental leave at the time of our annual remuneration review are still awarded a remuneration increase (merit based) so that they don't fall behind. We offer and encourage 'keeping in touch' days to staff who are on parental leave and ensure that they remain in contact with any news or developments in the business. Special consideration is also given to employees who are on parental leave if there are any structural changes made to a department or role. Where possible we ensure that suitable roles are held open for their return.

# Reporting questionnaire

## Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. The aggregated data in your workplace profile assists relevant employers in understanding the characteristics of their workforce, including in relation to occupational segregation, the position of women and men in management within their industry or sector, and patterns of potentially insecure employment.

**NB. IMPORTANT:**

- References to the Act mean the Workplace Gender Equality Act 2012.
- A formal 'policy' and/or 'formal strategy' in this questionnaire refers to formal policies and/or strategies that are either standalone or contained within another formal policy/formal strategy.
- Data provided in this reporting questionnaire covers the TOTAL reporting period from 1 April 2018 to 31 March 2019. (This differs from the workplace profile data which is taken at a point-in-time during the reporting period).
- Answers need to reflect ALL organisations covered in this report.
