## Face your Fears as Fright Nights returns to Warner Bros. Movie World

Warner Bros. Movie World's premiere after-dark event, Fright Nights is returning for nine nights this September and October and is set to be the biggest yet.

For the first-time in the history of the event, Fright Nights will have five mazes themed around some of the best IP franchises including *IT* and *Zombieland: Double Tap*.

Village Roadshow Theme Parks COO, Bikash Randhawa said Fright Nights is one of the parks biggest events and transforms Movie World with a series of shocking scares sure to leave guests facing their fears.

"This year's Fright Nights event are set to be more terrifying than ever before with the inclusion of five mazes, four all new precincts, live entertainment and endless scares throughout the park," he said.

"Our team have worked tirelessly to ensure this year's event will be a game-changer and we have partnered with some of the best movie franchises in the world. For the first time ever, the event will have two mazes based on movies which will be in cinemas during the event period with *The IT Maze*, in cinemas now and *Zombieland: Double Tap Maze*, inspired by the new movie in cinemas from October 17.

"The *IT Maze* is set to be one of the best mazes brought to life and is based on one of the most successful horror franchises of all time with guests to become immersed in some of the most iconic and frightening locations from the films as they set foot in the town of Derry.

"The *Zombieland: Double Tap Maze* will be true to the film, paying close attention to the style and humour of the franchise whilst still offering unexpected scares. Guests will embark on a horrific journey with Columbus and Tallahassee as they continue to carve out an existence in the post-apocalyptic world of *Zombieland*.

"The beauty of Fright Nights is that the park transforms, and guests find themselves immersed wherever they venture with frightening street performances and scarers lurching throughout the park.

"In addition to the mazes, there is a huge range of roaming entertainment including a live band at the Fountain, extra experiences such as panic rooms and themed food and beverage options as well as the parks signature rides and attractions."

Fright Nights contains extremely scary themes and experiences and is not recommended for children under the age of 14 years. Fright Nights will run from 6– 10pm on selected nights in September and October with tickets from \$49.
